

Display Screen Equipment Risk Assessment Training

Applus + is one of the leading industrial, access and safety training companies in Scotland. The Applus + Training Centre in Grangemouth, Central Scotland, has one of the largest training schools in the UK. We are IRATA, IOSH and Quallsafe accredited and our experienced trainers bring a wealth of knowledge and experience to enhance the training experience for all delegates. Bespoke access training courses can also be provided with training being carried out at clients' sites when required. Contact us to discuss your training requirements and arrange and book your course. We provide access training, industrial safety training as well as many other courses • Work at Height Training • Confined Space access training • Rope Rescue Training • Fire Warden Training

Workstation

Target customers

Display Screen Equipment Risk Assessment training is designed for supervisors of staff that use display screen equipment.

Display screen equipment (DSE) such as computers are found in almost every workplace. This one-day DSE risk assessment course covers the requirements for carrying out a DSE risk assessment in line with the Health and Safety Executive's (HSE) guidance. This course teaches how to carry out Display Screen Equipment risk assessments, helping attendees to meet their legal obligations and reduce the risk of health problems caused by bad practice.

Key customer benefits

Delegates will cover the following course content:

- The very latest learning methods, with special emphasis on participative and interactive techniques to develop sound and practical knowledge and understanding for day-to-day application in the workplace.

Some of the things you will learn include:

- Minimum requirements for workstations Principles of ergonomics Regulations relating to Display Screen Equipment.
